Technical Data Sheet

GRAND SLAM FS Fast & Spreading Perennial Ryegrass Bend

Description

A blend of three newly developed perennial ryegrasses that have shown exceptional tillering growth that produces a turf of greater density and traffic resistance. These grasses also show improved germination vigor and establishment as well as resistance to gray leaf spot and other diseases. These varieties also have shown to produce excellent turf quality.

Characteristics

Features

Rapid tillering, spreading growth habit
Fine texture & high density
Excellent seedling vigor
Gray leaf spot resistance
Better heat and drought tolerance
Improved mowability
Endophyte enhanced

Benefits

Excellent wear tolerance & recovery
Low poa invasion
Fast establishment
Less susceptible to warm weather disease
Improved summer performance
Reduced shredding during mowing
Insect and disease tolerant

Uses:

Grand Slam FS is a natural for sportsfields and high traffic areas such as:

- Golf Courses
- Playgrounds
- Parks
- Cemeteries
- Sod production
- Lawns
